

LIVE MUSIC, CRAFT BEER, GOOD TIMES

A LITTLE BIT ABOUT US

Back in February 2020, **12 Bar** opened as a Blues focused live music venue and craft beer bar. However, the global pandemic wreaked it's havoc on the international touring market and ceased the existence of global visitors to our city. Recognising the need for more **versatile live music venues** in Christchurch, 12 Bar has diversified in recent months. Welcoming shows of all sizes from across the genre spectrum, catering for a max capacity of **240 ticket holders**. We've got an outdoor courtyard with an **on-site food truck**, Craft Eats. As a converted warehouse, our adjustable venue layout can be scaled as per ticket numbers. For max capacity events, we have a **spacious dance floor** with booth seating, or more intimate options including table seating, couches and bar leaners.

GREAT FOOD AND BEVERAGE

Our venue is catered for by our resident food truck, **Craft Eats**. Offering delicious options for all dietary requirements. Behind the bar we've got something for everyone! With **twenty craft beers on tap** and a wide range of wine, spirits, cocktails and other non-alcoholic options. We welcome any discussion around **beverage partners** for events.

INCLUSIVE ENVIRONMENT

We encourage **diversity** when programming line ups and strive to be an **open inclusive environment** for people from all walks of life to enjoy. Verbal, physical, or sexual harrasment of any kind **will not be tolerated** and we encourage attendees to alert our friendly bar staff or security team of any anti-social behaviour.

WHERE YOU CAN FIND US

Within the Christchurch CBD, there are plenty of great accommodation options for your tour party. From there, you'll find us at **342 Saint Asaph Street**, a short walk, bike or scooter from the Central City Bus Exchange. There's plenty of free parking available during the evenings on the surrounding streets. 12 Bar is located next to neighbouring music venues, **Space Academy and Darkroom**.

VENUE HIRE

The venue hire fee will be decided on a case by case basis taking into account expected ticket numbers and ticket price. All events are required to have a venue tech on site for soundcheck and set up. The fee for this will be \$150 and if you decide to use a 12 Bar sound engineer at a day rate of \$250, this will be included in the total cost. As a licensed venue, will have **security on-site** for every event. The booking holder is responsible for providing a door person, or we can source one for you at a fee. We have an eftpos machine available for hire.

WE CAN MAKE IT EASY

Ōtautahi has a great range of **local freelancers** who can assist in all areas of bringing your show to life. Poster design and promotion, door and merch, sound and audio capture, staging and lighting, photo and video. **You name it** and we can arrange it, working with reliable and well priced local creatives. Please see our website for our **full venue specs**, we can source backline and **anything additional** to your requirements from our suppliers.
